Garth Rinard	**LMP**

Audience

FIRST ORDER OF BUSINESS **Call to Order**

Mr. Roethke called the meeting to order and read the roll call.

SECOND ORDER OF BUSINESS **Audience Comments**

Rachel Andrews was present to request vendor approval for her organization “Girls With Confidence”, and other audience members had questions and/or comments regarding the following:

- Monitoring of amenities;
- Midge fly issues;
- Badge reader issues at the gym.

DRAFT

THIRD ORDER OF BUSINESS **Consideration of Minutes of the Board of Supervisors' Regular Meeting held February 12, 2019**

> On a Motion by Mr. Pyche, seconded by Mr. Anderson, with all in favor, the Board of Supervisors approved the minutes of the Board of Supervisors' meeting held February 12, 2019 as presented for the Waterset North Community Development District.

FOURTH ORDER OF BUSINESS **Consideration of Operations & Maintenance Expenditures for Jan. 2019 and Feb. 2019**

> On a Motion by Mr. Anderson, seconded by Mr. Ball, with all in favor, the Board of Supervisors approved the Operations & Maintenance Expenditures for January 2019 ($102,704.21) and February 2019 ($107,864.84) for the Waterset North Community Development District.

FIFTH ORDER OF BUSINESS **Consideration of Café Operations & Maintenance Expenditures for January 2019**

> On a Motion by Mr. Ball, seconded by Mr. Anderson, with all in favor, the Board of Supervisors approved the Café Operations & Maintenance Expenditures for January 2019 ($16,362.79) for the Waterset North Community Development District.

SIXTH ORDER OF BUSINESS **Ratification of Series 2014 Construction Requisitions**

> On a Motion by Mr. Pyche, seconded by Mr. Anderson, with all in favor, the Board of Supervisors ratified Series 2014 construction requisition #CUS 290 for Ballenger & Company in the amount of $885.00 and CUS 291 for Ballenger & Company in the amount of $5,310.00 for the Waterset North Community Development District.

SEVENTH ORDER OF BUSINESS **Presentation of Monthly Waterway Inspection Report**

Mr. Roethke presented the latest waterway inspection report from Aquatic Systems to the Board for review. Discussion ensued regarding midge fly treatments.

DRAFT

EIGHTH ORDER OF BUSINESS **Consideration of Midge Fly Treatment Proposals**

Mr. Roethke presented proposals for midge fly treatments to the Board for consideration, informing the Board that treatments on pond #40 will cost $900.00 for three treatments. Discussion ensued.

> On a Motion by Mr. Pyche, seconded by Mr. Ball, with all in favor, the Board of Supervisors approved the proposal from Aquatic Systems, Inc. for midge fly treatments on pond #40 in the amount of $900.00 for the Waterset North Community Development District.

NINTH ORDER OF BUSINESS **Presentation of Monthly Field Inspection Report**

Mr. Roethke presented the latest landscaping field inspection report to the Board for review. Discussion ensued regarding several maintenance issues. Mr. Rinard addressed and answered the Board's questions.

TENTH ORDER OF BUSINESS **Consideration of Landscape Enhancement Proposals**

Mr. Roethke presented proposals for landscape enhancements to the Board for consideration. Discussion ensued.

> On a Motion by Mr. Pyche, seconded by Mr. Ball, with all in favor, the Board of Supervisors approved proposal #51816 from LMP for sabal palm replacement in the amount of $4,365.25 for the Waterset North Community Development District.

ELEVENTH ORDER OF BUSINESS **Consideration of Landscape Addendum #4 Proposal**

Mr. Roethke presented LMP landscape contract addendum #4 to the Board for consideration.

> On a Motion by Mr. Pyche, seconded by Mr. Anderson, with all in favor, the Board of Supervisors approved the LMP landscape contract addendum #4 at an annual cost of $41,549.00 for the Waterset North Community Development District.

(Mr. Frazier and Mr. Rinard left the meeting at 6:37 PM.)

DRAFT

TWELFTH ORDER OF BUSINESS **Ratification of Insect Removal Proposal**

Mr. Roethke presented a proposal from NVirotect for stinging insect removal to the Board for ratification.

> On a Motion by Mr. Pyche, seconded by Mr. Ball, with all in favor, the Board of Supervisors ratified the proposal from NVirotect for stinging insect removal at a cost of $189.00 for the Waterset North Community Development District.

THIRTEENTH ORDER OF BUSINESS **Ratification of Pool Pump Motor Repairs Proposal**

Mr. Roethke presented a proposal for splash pad pump motor replacement to the Board for ratification.

> On a Motion by Mr. Anderson, seconded by Mr. Ball, with all in favor, the Board of Supervisors ratified the proposal from Suncoast Pool Service for splash pad pump motor replacement at a cost of $1,435.00 for the Waterset North Community Development District.

FOURTEENTH ORDER OF BUSINESS **Presentation of FY 2017-2018 Year-End Audit**

Mr. Roethke presented the Fiscal Year 2017-2018 audit to the Board for review and noted that the auditor's opinion was unqualified and there are no instances or adverse findings reported for the District.

> On a Motion by Mr. Pyche, seconded by Mr. Anderson, with all in favor, the Board of Supervisors accepted the Fiscal Year 2017-2018 audit for the Waterset North Community Development District.

FIFTEENTH ORDER OF BUSINESS **Consideration of Variance Request**

Mr. Roethke presented to the Board a variance request from a resident looking to utilize District property for their pool installation. The Board declined to approve the request.

SIXTEENTH ORDER OF BUSINESS **Consideration of District Property Use by Subcontractors**

DRAFT

Mr. Mazzoni reviewed with the Board a request from a produce vendor that would like to utilize District property for their services.

SEVENTEENTH ORDER OF BUSINESS **Discussion Regarding Security Service**

Mr. Mazzoni reviewed a memo regarding security services issues with the Board. The vendor will be switching out security officer personnel at the District.

EIGHTEENTH ORDER OF BUSINESS **Staff Reports**

A. Clubhouse Manager

Mr. Mazzoni presented the Clubhouse Manager's report to the Board for review. Discussion ensued regarding several maintenance items including towing cars from the county road. Ms. McCormick will look into the District's options here and will contact the Sheriff's attorney.

Mr. Mazzoni also discussed an issue with a resident clearing out a natural area behind their home. District Management will send a letter to this resident advising them to cease the activity.

B. Café Sales Report

There was no café sales report at this time. Mr. Goldenberg discussed menu prices moving forward. Mr. Mazzoni discussed the potential of adding vending machines at Lakeside.

C. District Counsel

No report.

D. District Engineer

Not present; no report.

E. District Manager

Mr. Roethke stated that the next regular meeting will take place on Tuesday, April 9, 2019 at 6:00 PM at the Waterset Clubhouse located at 7821 Paradiso Drive, Apollo Beach, Florida 33572.

NINETEENTH ORDER OF BUSINESS **Supervisor Requests**

Mr. Ball asked to have the District website looked at for accuracy.

DRAFT

Mr. Pyche discussed the upcoming budget.

TWENTIETH ORDER OF BUSINESS **Adjournment**

On a Motion by Mr. Pyche, seconded by Mr. Anderson, with all in favor, the Board of Supervisors adjourned the meeting at 7:30 PM for the Waterset North Community Development District.

Secretary/Assistant Secretary	Chairman/Vice Chairman

FORM OF REQUISITION
WATERSET NORTH COMMUNITY DEVELOPMENT DISTRICT
SPECIAL ASSESSMENT REVENUE BONDS
SERIES 2014

The undersigned, an Authorized Officer of WATERSET NORTH COMMUNITY DEVELOPMENT DISTRICT (the "District") hereby submits the following requisition for disbursement under and pursuant to the terms of the Master Trust Indenture from the District to US Bank, National Association, as successor Trustee (the "Trustee") to The Bank of New York Trust Company, N.A., dated as of October 1, 2007 (the "Master Indenture"), as amended and supplemented by the First Supplemental Indenture from the District to the Trustee, dated as of October 1, 2007 and as further supplemented by the Second Supplemental Indenture from the district to US Bank, National Association (the Master Indenture as amended and supplemented is hereinafter referred to as the "Indenture") (all capitalized terms used herein shall have the meaning ascribed to such term in the Indenture):

March 07, 2019

(A) Requisition Number: **CR292**

(B) Name of Payee: **Erin McCormick**
3314 Henderson Blvd #103
Tampa, FL 33609

(C) Amount Payable: **$1,606.00**

(D) Purpose for which paid or incurred (refer also to specific contract if amount is due and payable pursuant to a contract involving progress payments): **Invoice # 10295 for Professional Services through 02/18/19**

(E) Fund or Account and subaccount, if any, from which disbursement to be made: **Series 2014 Construction Account.**

The undersigned hereby certifies that obligations in the stated amount set forth above have been incurred by the District, that each disbursement set forth above is a proper charge against the 2014 Acquisition and Construction Account and the subaccount, if any, referenced above, that each disbursement set forth above was incurred in connection with the acquisition and construction of the 2014 Project and each represents a Cost of the 2014 Project, and has not previously been paid.

The undersigned hereby further certifies that there has not been filed with or served upon the District notice of any lien, right to lien, or attachment upon, or claim affecting the right to receive payment of, any of the moneys payable to the Payee set forth above, which has not been released or will not be released simultaneously with the payment hereof.

The undersigned hereby further certifies that such requisition contains no item representing payment on account of any retained percentage which the District is at the date of such certificate entitled to retain.

If this requisition is for a disbursement from other than the Costs of Issuance subaccount, there shall be attached a certificate signed by the Consulting Engineers certifying approval of this requisition which must state that this disbursement is for a Cost of the 2014 Project and is consistent with: (i) the applicable acquisition or construction contract; (ii) the plans and specifications for the portion of the 2014 Project with respect to which such disbursement is being made; and, (ii) the report of the Consulting Engineer attached as an Exhibit A to the Second Supplemental Indenture, as such report shall have been amended or modified on the date hereof.

If this requisition is for a disbursement from other than the Costs of Issuance subaccount, it is hereby represented by the undersigned that the Governing Body of the District has approved this requisition or has approved the specific contract with respect to which disbursements pursuant to this requisition are due and payable.

Attached hereto are originals of the invoice(s) from the vendor of the property acquired or services rendered with respect to which disbursement is hereby requested.

Waterset North CDD Waterway Inspection Report

3/22/2019

Site: 1

Comments: Site looks good

That native vegetation within Pond #1 was observed to be in good health. The submersed Pondweed will continue to be monitored and re-treated as necessary.

Site: 22

Comments: Normal growth observed

The northeastern section of Pond #22 was noted with Torpedograss among the desirable vegetation. The grasses will be spot-treated to avoid collateral damage to the native vegetation. The minor submersed Pondweed will continue to be monitored and treated as necessary.

Waterset North CDD Waterway Inspection Report

3/22/2019

Site: 35

Comments: Requires attention

Substantial Pondweed was present within Pond #35 extending approximately 15 ft from the shoreline. The submersed vegetation will be treated on 3/26 and a follow-up treatment will be performed during April's scheduled treatment date.

Site: 26

Comments: Normal growth observed

Submersed Pondweed, algae, and minor Torpedograss were present within Pond #26, all of which will be targeted during our upcoming scheduled visits.

Waterset North CDD Waterway Inspection Report

3/22/2019

Site: 34

Comments: Normal growth observed

New growth of algae was present along the perimeter of Pond #34, which will be treated during our upcoming scheduled visits. The submersed vegetation is scheduled to receive a systemic treatment on 3/29.

Site: 30, 12

Comments: Site looks good

Ponds #30 (top) and #12 (right) looked good during today's visit.

Waterset North CDD Waterway Inspection Report

3/22/2019

Site: 23, 21, 24

Comments: Requires attention

Submersed Pondweed was present within Ponds #23 (top) and #21 (top right), and substantial Slender Spikerush within Pond #24 (bottom right), all of which will be treated during our upcoming scheduled maintenance visits.

Site: 40, 39, 33

Comments: Requires attention

Substantial Pondweed was present within Ponds #40 (top) and #39 (top right), both of which will be re-treated during our upcoming scheduled maintenance visits. Overall, Pond #33 (bottom right) looked good.

Waterset North CDD Waterway Inspection Report

3/22/2019

Site: 25, 27, 29

Comments: Normal growth observed

Overall, Ponds #25 (top) and #29 (bottom right) looked good. Pond #29 (top right) was identified with normal growth of algae due to the shallow nature of the site. The algae will be treated during our upcoming visits and is expected to clear within 10-14 days following treatment.

Site: 17

Comments: Site looks good

Pond #17 continues to look good following our scheduled maintenance visits. The submersed Babytears will continue to be monitored and treated as necessary.

Waterset North CDD Waterway Inspection Report

3/22/2019

Site: 20, 31, 38

Comments:

Minor Torpedograss was present among the native vegetation of Pond #20 (top), which will continue to be spot-treated during our routine visits. Ponds #31 (top right) and #38 (bottom right) looked good.

Site: 28, 37, 36

Comments: Normal growth observed

Minor submersed Slender Spikerush and filamentous algae were noted along the immediate perimeter of Pond #37 (top right), which will be treated during our upcoming visits. No issues were observed within Ponds #28 (top) and #36 (bottom right).

Waterset North CDD Waterway Inspection Report

3/22/2019

Site: 41, 42, 45

Comments: Requires attention

New growth of Torpedograss was present among the decaying weeds from last month's applications within Pond #41 (top), which will continue to be targeted during our routine visits. Above average growth of algae was present within Pond #45 (bottom right). Pond #42 (top right) looked good.

Site: 32, 44, 11

Comments: Treatment in progress

Positive herbicide application results following this month's treatments were noted within Ponds #32 (top) and #44 (top right). Minor planktonic algae was observed windblown within Pond #11 (bottom right), which is expected to clear within 10-14 days following treatment.

Waterset North CDD Waterway Inspection Report

3/22/2019

Site: 43, 47, 19

Comments: Requires attention

Treatments have been limited within Pond #19 (bottom right), Pond #43 (top) and #47 (top right) due to overgrown perimeter vegetation. Maintenance is required to access these sites.

Site: 46, 15, 4

Comments: Site looks good

Ponds #15 (top right) and #4 (bottom right) looked good. Normal growth of submersed algae was noted within Pond #46 (top), which will be treated during our routine application dates.

Waterset North CDD Waterway Inspection Report

3/22/2019

Site: 14, 13, 10

Comments: Requires attention

Although Pond #13 (top right) has improved, Pond #14 was noted with a substantial increase in submersed Pond Weed, which will be treated during our upcoming visits. The native vegetation within Pond #10 (bottom right) looked good.

Site: 9, 8, 7

Comments: Site looks good

Ponds #9 (top), #8 (top right) and #7 (bottom right) looked good.

Waterset North CDD Waterway Inspection Report

3/22/2019

Site: 6, 5, 18

Comments: Site looks good

High water clarity and healthy native plant material were noted within Ponds #6 (top), #5 (top right) and #18 (bottom right).

Site: 2, 3, 16

Comments: Site looks good

Overall, Ponds #2 (top) and #3 (top right) looked good. New growth of submersed Pondweed and floating Azolla were present within Pond #16 (bottom right), which will continue to be monitored and re-treated as necessary.

Waterset North CDD Waterway Inspection Report 3/22/2019

Management Summary

The waterway inspection for the Waterset North CDD was performed on March 22nd, 2019 for all ponds.

Overall, the inspected shorelines were observed to be in good condition. Of the inspected ponds, minor shoreline weeds were present within Pond #41 and moderate new growth of Torpedograss within Ponds #22 and #40, all of which will be treated during our upcoming scheduled visits. The new growth of grasses wihtin the shelf of Ponds #26 and #45 will be treated via airboat due to access. Positive results may be anticipated within 14-21 day following herbicide application.

Positive treatment results following this month's applications were noted within ponds #32 and #44, which were previously noted with substantial herbaceous weeds.

Filamentous algae was present within Ponds #26, #34, #23, #39, #27, #37, #41, #45, #11, #46 and #14, all of which will be treated during our upcoming scheduled maintenance visits. Algae is expected to clear within 10-14 days following algaecide application. Most of the algae was considered normal for this time of year. The algae within Pond #45 is a result of plant decay following several herbicide treatments due to the large volumes of Cattails. Planting Pond #45 may be recommended once the Cattails have been cleared to improve nutrient uptake and aesthetics.

NOTE: ASI recommends a Restoration Assessment for Ponds #4 and #40. This water quality assessment would collect data pertinent to generating a management plan specifically tailored to each pond.
Ponds that experience nuisance midge populations may be stratified, which refers to low oxygen levels at the pond floor. These stratified systems encourage the development of midge larvae as the predatory fish cannot reach these infested areas. Aeration would be recommended to remedy pond stratification.
Planting the perimeter of ponds experiencing midge flies is also recommended to improve fish habitat and attract predatory insects such as Dragonflies.

Of the inspected ponds, only Ponds #10 and #12 were noted with minor floating Duckweed, both of which will continue to be treated during our scheduled maintenance visits.

Lastly, normal growth of submersed Pondweed was identified within Ponds #1, #16, #21, #22, #23, #26 and #34, all of which will continue to be monitored and treated as necessary. The above average growth identified within Ponds #14, #35, #39 and #40 will be targeted during our upcoming scheduled treatment dates and are expected to display positive results within 14-21 days following submersed applications.

NOTE: Due to overgrown perimeter vegetation, treatments have been limited within Ponds #19, #21, #32, #43 and #47. Landscape maintenance is required for access.

Recommendations/Action Items

- Routine Maintenance.

- Continue to monitor the submersed vegetation throughout the community and treat as necessary.

- Treat new growth of algae within Ponds #26, #34, #23, #39, #27, #37, #41, #45, #11, #46 and #14.

- Target herbaceous weeds within Ponds #22, #40, #41, #26 and #45.

- Monitor submersed vegetation within Ponds #1, #2, #10, #12, #13, #14, #21, #22, #24, #26, #34, #35, #39 and #40 and re-treat as necessary.

- Treat floating Duckweed within Ponds #10 and #12.

NOTE: Due to overgrown perimeter vegetation, treatments have been limited within Ponds #19, #21, #32, #43 and #47. Landscape maintenance is required.

NOTE: A Restoration Assessment is recommended for Ponds #4 and #40 due to recurring issues. A proposal has been generated for the boards consideration.
NOTE: A Midge Survey is recommended for Ponds #4, #22, #34, #35, #39 and #40. A proposal has been generated for the boards consideration.
NOTE: A Midge Treatment is recommended for Ponds #4, #39 and #40 due to recurring midge. A proposal has been generated for the boards consideration.
NOTE: A Planting is recommended for Pond #40 for the boards consideration for further midge control. A proposal has been generated for the boards consideration.

THANK YOU FOR CHOOSING ASI!

Special Services Proposal for
Waterset North CDD

Partnership for Beautiful and Healthy Waterways

Aquatic Systems, Inc., a SOLitude Lake Management Company
Lake & Wetland Management Services
2100 NW 33rd Street • Pompano Beach, FL 33069
800-432-4302 • www.aquaticsystems.com

March 25, 2019

Mr. Grant Phillips, District Manager
Waterset North CDD
c/o Rizzetta & Company
9428 Camden Field Parkway
Riverview, Florida 33578

VIA EMAIL: gphillips@rizzetta.com

Dear Grant:

As requested, please find enclosed our MIDGE FLY quotation for sites #4, #22, #34, #35 and #39 at **Waterset North CDD**.

This is a limited management program and does not guarantee Midge Fly management of existing adults.

Kindly sign the contract and return to us as soon as possible, so we may schedule your program.

If you have any questions, concerns, or if there is any way I can be of assistance, do not hesitate to call.

Sincerely,

Nicholas Viles
Business Development Consultant
NV/lms

cc: Doug Agnew, General Manager/Senior Consultant
cc: Josh McGarry, District Manager

Midge-Fly Services
#00068590

Three (3) Treatments

Month service is to be performed:_____

Date: March 25, 2019 JFM/NV-AO

Description of Services:

Midge Fly Treatment(s): Three (3) Treatments (approximately 14 weeks apart).

Sites: #4, #22, #34, #35 and #39 (45.70 Acres)

***Note**: This is a limited management program and does not guarantee Midge Fly management of existing adults.*

Total Balance Due Upon Completion $17,823.00

The above price is effective for 90 days from the date of this proposal.

Terms & Conditions of Special Services Agreement

1. If CUSTOMER does not directly own the areas where services are to be provided, CUSTOMER warrants and represents that he has control of these areas to the extent that he may authorize the specified services and in the event of dispute of ownership agrees to defend, indemnify and hold ASI harmless for the consequences of such services.

2. ASI will be reimbursed by the CUSTOMER for administrative fees, compliance programs, invoicing or payment plans or similar expenses caused by requirements placed on ASI by the CUSTOMER that are not explicitly included in this contract's specifications.

3. ASI, at its expense, shall maintain the following insurance coverage: Workman's Compensation (statutory limits), General Liability, Property Damage, Products and Completed Operations Liability, and Automobile Liability.

4. If at any time during the term of this Agreement the government imposes any additional regulatory permit requirements or fees, this Agreement may be renegotiated to include these changes and the cost of the additional services and/or fees.

5. Cyanobacteria identification and toxin testing are not included in this agreement. Cyanobacteria are common throughout Florida waterways and our algae management program cannot guarantee the absence, elimination or control of cyanobacteria and toxins. ASI shall in no event be liable to CUSTOMER, or others, for indirect, special or consequential damages resulting from the presence of cyanobacteria or cyanobacteria toxins in their waterbodies.

6. ASI is not responsible under any circumstances for flooding or water damage from fouled water level control structures resulting from ASI installing Carp Containment Barriers on the structures.

7. Payment terms are net 30 days from invoice date. All amounts remaining due and owing 30 days after billing by SELLER shall bear interest at the rate of 1.5% per month until paid in full. The CUSTOMER shall pay all costs of collection, including liens and reasonable attorney's fees. ASI may cancel this Agreement, if CUSTOMER is delinquent more than sixty (60) days on their account.

8. Upon the anniversary date, this Agreement shall automatically be extended for successive twelve-month periods, unless notice of non-renewal has been received by either party, in writing, at least thirty (30) days prior to the anniversary date. ASI may, with thirty (30) days' pre-notification, change pricing effective upon the next anniversary date.

9. If at any time during the term of this Agreement, CUSTOMER feels ASI is not performing in a satisfactory manner, CUSTOMER shall inform ASI, by certified mail, return-receipt requested, stating the reasons for CUSTOMER'S dissatisfaction. ASI shall investigate and attempt to cure the defect. If, after 30 days from the giving of the original notice, CUSTOMER continues to feel ASI performance is unsatisfactory, CUSTOMER may cancel this Agreement by giving 30 days notice ("Second Notice") to ASI and paying all monies owing to the effective date of termination.

10. This Agreement constitutes the entire Agreement of the parties hereto and no oral or written alterations or modifications of the terms contained herein shall be valid unless made in writing and accepted by an authorized representative of both ASI and the CUSTOMER.

FLORIDA'S AQUATIC MIDGE FLIES

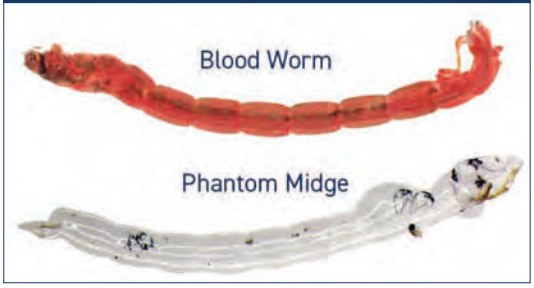
IDENTIFICATION AND CONTROL

Order: Diptera **Family:** Chironomidae **Genus & Species:** 700+ Southeastern United States

Also called blind mosquitoes, these midge flies are insects often found swarming around lakes, ponds and waterways. They look like a mosquito but don't bite, sting, suck blood or transmit disease. Midges belong to a very large and diverse family of aquatic insects. Their egg, larvae and pupae stages occur in water. The flying adults emerge from the water surface in large numbers from our lakes, ponds wetlands.

Midge flies are ubiquitous throughout Florida, North America and the world. They successfully inhabit many different aquatic ecosystems including both neighborhood storm water drainage systems and large natural lakes where they serve as an important food source for other aquatic insects, amphibians, fish and birds.

MIDGE FLY LARVA

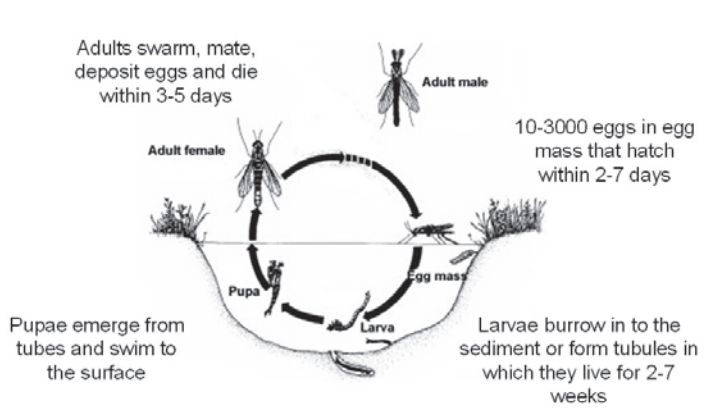


Many species of midge flies have red colored larvae, commonly called blood worms, that burrow into the bottom muck and feed on suspended organic particles and algae drifting by. One curious exception is the free-swimming predatory and transparent phantom midge whose diet includes larger zooplankton, other insect larvae and most any organism small enough for them to capture and eat. Florida phantom midges are less common than blood worms and are often found inhabiting deeper areas of lakes.

THE PROBLEM WITH MIDGE FLIES

Midge larvae have evolved to survive and prosper under difficult environmental conditions commonly occurring in many of our community lakes and ponds that have excessive nutrient loading, murky water, organic muck accumulation and low dissolved oxygen levels. These same water quality problems that favor midges also prevent midge predators such as fish and other aquatic insects from preying on them. This allows midges to form monocultures across a lake's bottom and reproduce in extremely large numbers often exceeding 4,000 larvae per square meter! Out-of-control midge larvae populations can become a terrible annoyance, inconvenience and even a health hazard to waterside residents when they metamorphose into adult flies.

MIDGE FLY LIFE CYCLE



Aquatic Systems
LAKE & WETLAND SERVICES
2100 NW 33RD ST • POMPANO BEACH, FL 33069
1-800-432-4302 • WWW.AQUATICSYSTEMS.COM

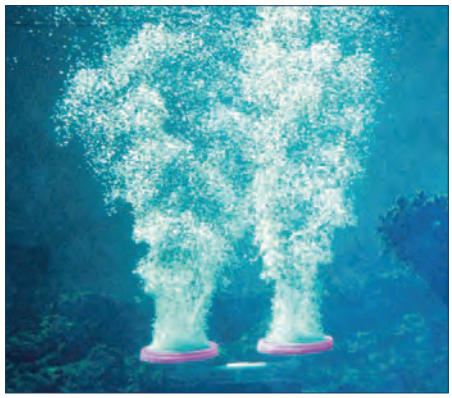
Midge fly swarming occurs in Florida year-round but is strongest each spring and fall when adults emerge from the water surface at night in huge numbers. They can make outdoor activities unpleasant and are attracted to lights in houses, porches and street lamps where they land in large numbers blanketing, discoloring, staining and damaging the exterior surfaces of buildings, cars and businesses. A secondary phenomenon is the rapid increase in the local spider population reacting to the midge flies as a food source. Residents find their eaves, porches and windows covered in spider webs full of decaying midges and smelling like dead fish.

FIVE STEPS TO SAFELY AND SUSTAINABLY REDUCING MIDGE FLY POPULATIONS

Managing midge fly populations below nuisance levels requires a multidisciplinary approach to achieve successful long-term control.

1. Lake management efforts should be focused on improving water quality

- Lowering phosphorus levels reduces recurring algae blooms that feed midge larvae
- Preventing or diverting watershed runoff lowers phosphorus, nitrogen and organic detritus
- Avoiding reclaimed wastewater discharges prevents phosphorus, nitrogen and ammonia problems
- Appling algaecides reduces algae blooms, a major larvae food source



2. Install a bottom diffused aeration system

- Aeration raises dissolved oxygen thus accelerating the oxidation of decaying organic content – a key food source that filter feeding midge larvae rely on.
- Raising bottom oxygen levels above 3-4 PPM will allow predatory fish to reach and attack the larvae population hiding in the deeper bottom waters and sediments
- Higher oxygen levels help reduce phosphorus, nitrogen and algae growth improving the lake's overall water quality, clarity and beauty.

3. Manage your fisheries

- Survey your fisheries
- Maintain a predatory fish population that feeds on midge larvae
  - Stock the correct quantity of fish for your lake's midge species and density
  - Restock yearly to maintain abundant fish populations

Aquatic Systems
LAKE & WETLAND SERVICES

2100 NW 33RD ST • POMPANO BEACH, FL 33069
1-800-432-4302 • WWW.AQUATICSYSTEMS.COM

4. Apply biological larvicides

- Conduct a midge survey to determine locations, types and density of larvae
- Develop a treatment plan utilizing a series of timed applications to disrupt their reproduction cycle
- Employ biological products now available for midge control
  - Provide faster, longer lasting and less expensive control
  - Targets mosquito and midge fly larvae

5. Develop a healthy and diverse shoreline littoral habitat

- Native plantings provide cover and shelter to midge predators including fish, amphibians, birds and dragonfly nymphs and adults
- Many hardy attractive native flowering species to choose from including arrowhead, pickerelweed, canna lily and blue flag iris

SOME MIDGE FLIES ARE BENEFICIAL

A swarm of midge flies by your Florida lake, pond or waterway is a major nuisance, and it may seem like a good idea to be rid of them all. However, a healthy, balanced midge fly population below nuisance levels, is best for a waterway's overall fisheries and aquatic ecology. With a proven, proactive approach to larvae management, midge fly problems can be quickly and sustainably resolved.

DON'T LET MIDGE FLIES KEEP YOU INSIDE.

We're here to help you understand and resolve your midge fly problems today.

Our Commitment to Responsible Lake Management

Aquatic Systems has been effectively managing Florida lakes, ponds, wetlands and uplands using targeted treatments based on scientific research for over 40 years. Headquartered in Pompano Beach and operating throughout the state of Florida, we are committed to the restoration and maintenance of naturally occurring freshwater lakes and ponds, man-made storm water/pollution retention ponds, wetlands and preserves.

Our Commitment to You

We believe that forming long-lasting partnerships with our customers is key to attaining beautiful, healthy waterways for all to enjoy.

You can expect us to:

- Respond to all calls within 48 hours, our average is 97% response in under a day
- Deliver detailed reports after every visit
- Be available for board or community meetings to give presentations or just answer questions
- Propose and promote methods that are better for the environment and more cost effective over time

Environmental Mission

We hire degreed biologists with the knowledge and experience to continuously assess and make recommendations based upon the conditions present each time they enter your property for service.

In addition to the tests we run for customers, our team of scientists engage in ongoing research to improve our lake management technology. Our goal is to find environmentally sound solutions that overcome this growing problem in the challenging Florida environment.

We use the observations of our service teams and the research from our labs to find and promote earth-friendly products and methods to treat both common and challenging water problems.

Aquatic Management Programs

Working in Florida Waterways Since 1977

Our beautiful Florida environments! We work and live in them every day! Aquatic Systems restores and maintains ponds, lakes, wetlands and preserves. Our exceptional results stem from using balanced and ecologically-compatible technologies.

Algae and Aquatic Weed Control

- Treatments targeted to the specific algae or plant in each water body
- Ongoing research to determine the underlying causes of overgrowth
- Scheduled treatments with management reporting
- Degreed, state certified and licensed aquatic technicians

Wetland and Upland Mitigation Services

- Design, creation and restoration of natural areas
- Exotic plant control and removal
- Mitigation management and government reporting
- Compliance violation correction services
- State certified and licensed natural areas field technicians

Midge Fly and Mosquito Control

- Treatment for year-round control of nuisance organisms: swarming midge flies, mosquito larvae, leeches and more
- State licensed and insured in public health pest control

Aquatic Lab and Field Testing and Research

- Experienced field biologists for field testing
- In-house labs for water quality testing and algae identification
- Aquatic weed science research lab to find better treatments
- Bathymetric mapping
- Easy to understand reports
- Staff biologist available for your questions

Vertex Lake Aeration and Floating Fountains

- Sales, installation, service and repair by well-trained technicians of:
  - Bottom diffused aeration systems to improve overall water quality
  - Custom design/build of floating fountains up to 60 horsepower with spectacular display heights from 10' to 100'

Fisheries Management

- Triploid grass carp to help control aquatic weeds
- Redear and bluegill help control midge flies
- Sport fish including largemouth bass, catfish and bluegill

Assessment Services

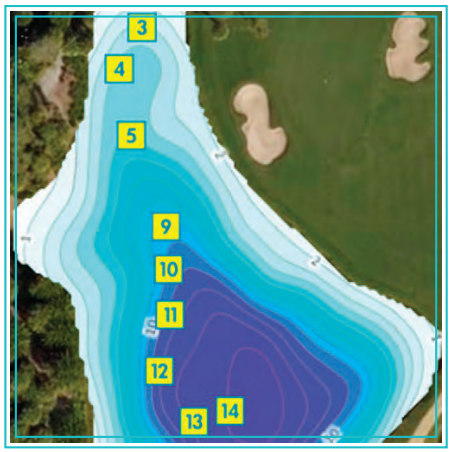
Lake Water Quality Testing and Research Services

Aquatic Systems has a fully staffed, in-house laboratory to provide complete water testing services to our clients. Laboratory data have many uses; including determining suitability of water for recreation or for irrigation. All water chemistry and bacteria test reports include full explanations and an aquatic biologist is available at our laboratory to answer all your questions.

The team, shown below, consists of the top professionals in lake science and experienced regional biologists who receive ongoing training to perform all tests to the highest standards.

FIELD ASSESSMENT SAMPLING

From identifying potential source points for excessive nutrients to oxygen and temperature levels; your assessments are performed by our highly trained field biologists.



BATHYMETRIC LAKE MAPPING

How deep is your lake? How thick is the vegetation? A 3-D map of the lake will help us treat the water more efficiently and/or specify the most effective aeration system.

WATER QUALITY LAB

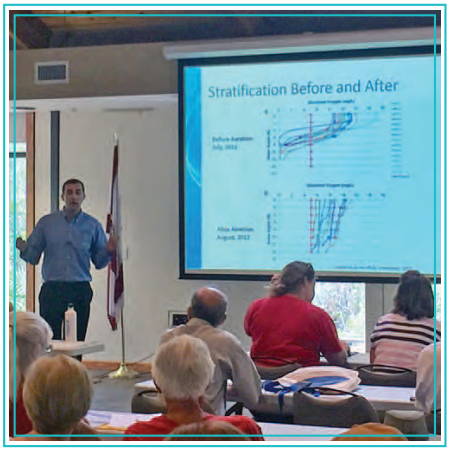
Water is more than H_2O. It is comprised of a multitude of nutrients and particulates. Our lab scientists can perform over 30 specialized tests to determine your water's true chemistry.

ALGAE IDENTIFICATION LAB

To treat the algae, it's important to know what type of algae you are having problems with. We can identify both the type of algae and whether or not it is toxic

AQUATIC PLANT AND ALGAE LAB

Our in-house research lab studies difficult to control invasive species to find the most effective rate and types of treatments that minimize potential harm to the environment.



CONSULTING SERVICES

Our experts are available for water resource management presentations, or to just answer questions at your meetings. Continuing Education Units (CEUs) are also available.

April 1, 2019

Mr. Grant Phillips, District Manager
Waterset North CDD
c/o Rizzetta & Company
9428 Camden Field Parkway
Riverview, Florida 33578

VIA EMAIL: gphillips@rizzetta.com

Dear Grant:

Our detailed survey of site #40 at **Waterset North CDD** indicates the need for beneficial wetland plant introduction.

Native aquatic plants are vital components of lake, pond and canal ecosystems. They form an important link between the base of the foodweb and the higher forms of plant and animal life. These plants provide protection, spawning and feeding habitats for aquatic animals, waterfowl and fish. Water quality is directly improved by the balance of ecological factors, including the presence of native wetland plants.

We recommend introduction of clusters of the emergent aquatic plant species. These selected areas along the littoral region are indicated on the attached map.

Environmental benefits of a planting will be:

Creation of wildlife sanctuary and waterfowl nesting areas.
Sediment filtration.
Absorption of excessive nutrients (from fertilization and road runoff).
Erosion deterrent.
Increased food chain supply.
Improved fish habitat.
Enhanced aesthetics (shoreline is presently barren).

A total one-time investment includes all wetland plant material, labor, insurance and travel time necessary for completion of your planting**.**

As requested, please also find enclosed a *Restoration Assessment Agreement* for **Waterset North CDD.**

Please sign the contracts and return to us as soon as possible, so we may schedule your programs.

If you have any further questions, concerns, or if there is any way I can be of assistance, do not hesitate to call.

We look forward to serving **Waterset North CDD**!

Sincerely,

Nicholas Viles
Business Development Consultant

Planting Agreement

#00068590

Site: #40

Prices Quoted are F.O.B.: Delivered & Planted

Date of proposal: April 1, 2019 JFM/NV-AO

We are pleased to quote special pricing as follows:

Quantity	Description	Plant Size
950	Duck Potato (*Sagittaria lancifolia*)	Bareroot
2,068	Gulf Spikerush (*Eleocharis cellulosa*)	Bareroot
950	Pickerelweed (*Pontederia cordata*)	Bareroot
Note: *Planting 18 inch on center. Pods will be ~25 plants per. ~160 pods along the perimeter. See attached map for plant species location.*		

Total Balance Due Upon Planting $4,801.00

The above price is effective for 90 days from the date of this proposal.

Plant Survival Guarantee

All plants provided and installed under the terms of this Agreement are guaranteed to be of good quality and free of existing disease or defects at the time of installation. A Warranty is provided for survival of 80% of installed plants for a ninety (90) day period following installation or until such time as another company other than ***Aquatic Systems, Inc****. accepts the planted areas for maintenance, whichever is less. If survival is less than 80% at the end of the 90-day period or upon acceptance for maintenance, replanting (to 80% survivorship) shall be performed by* ***ASI*** *at no cost to the CUSTOMER. This plant survivorship Warranty does not include the loss or damage of installed plant materials due to acts of God such as flood, fire, drought or other catastrophic events nor does the warranty cover loss or damage due to theft, vandalism, erosion, pestilence, predation by turtles, fish or other animals, or negligence by others. It is the responsibility of the CUSTOMER to maintain water depths at planned levels. Plant loss or damage from high or low levels is not covered by this Warranty.*

Terms & Conditions of Special Services Agreement

1. If CUSTOMER does not directly own the areas where services are to be provided, CUSTOMER warrants and represents that he has control of these areas to the extent that he may authorize the specified services and in the event of dispute of ownership agrees to defend, indemnify and hold ASI harmless for the consequences of such services.

2. ASI will be reimbursed by the CUSTOMER for administrative fees, compliance programs, invoicing or payment plans or similar expenses caused by requirements placed on ASI by the CUSTOMER that are not explicitly included in this contract's specifications.

3. ASI, at its expense, shall maintain the following insurance coverage: Workman's Compensation (statutory limits), General Liability, Property Damage, Products and Completed Operations Liability, and Automobile Liability.

4. If at any time during the term of this Agreement the government imposes any additional regulatory permit requirements or fees, this Agreement may be renegotiated to include these changes and the cost of the additional services and/or fees.

5. Cyanobacteria identification and toxin testing are not included in this agreement. Cyanobacteria are common throughout Florida waterways and our algae management program cannot guarantee the absence, elimination or control of cyanobacteria and toxins. ASI shall in no event be liable to CUSTOMER, or others, for indirect, special or consequential damages resulting from the presence of cyanobacteria or cyanobacteria toxins in their waterbodies.

6. ASI is not responsible under any circumstances for flooding or water damage from fouled water level control structures resulting from ASI installing Carp Containment Barriers on the structures.

7. Payment terms are net 30 days from invoice date. All amounts remaining due and owing 30 days after billing by SELLER shall bear interest at the rate of 1.5% per month until paid in full. The CUSTOMER shall pay all costs of collection, including liens and reasonable attorney's fees. ASI may cancel this Agreement, if CUSTOMER is delinquent more than sixty (60) days on their account.

8. Upon the anniversary date, this Agreement shall automatically be extended for successive twelve-month periods, unless notice of non-renewal has been received by either party, in writing, at least thirty (30) days prior to the anniversary date. ASI may, with thirty (30) days' pre-notification, change pricing effective upon the next anniversary date.

9. If at any time during the term of this Agreement, CUSTOMER feels ASI is not performing in a satisfactory manner, CUSTOMER shall inform ASI, by certified mail, return-receipt requested, stating the reasons for CUSTOMER'S dissatisfaction. ASI shall investigate and attempt to cure the defect. If, after 30 days from the giving of the original notice, CUSTOMER continues to feel ASI performance is unsatisfactory, CUSTOMER may cancel this Agreement by giving 30 days notice ("Second Notice") to ASI and paying all monies owing to the effective date of termination.

10. This Agreement constitutes the entire Agreement of the parties hereto and no oral or written alterations or modifications of the terms contained herein shall be valid unless made in writing and accepted by an authorized representative of both ASI and the CUSTOMER.

Create a Living Shoreline

Everyone appreciates how nice it looks having the right native aquatic plants along the shoreline of your lake or pond, especially when they bloom. But, there is more to native aquatic plants than looks! A properly created buffer zone aids in keeping your aquatic ecosystem healthy. Shoreline aquascaping by Aquatic Systems, promotes and helps to maintain improved water quality in your waterways.

PLANTING NATIVE AQUATIC PLANTS ALONG THE SHORELINE WILL HELP:

Control erosion

Without a buffer between the turf area and the lake or pond, erosion along the shoreline can occur and lead to high sedimentation rates into the waterbody, poor water quality and loss of the original landscape. Lining the shore with native plants will help stabilize the shoreline and reduce the chances of erosion-related issues.

Reduce non-native plant invasions

Plants become classified as invasive species when they invade areas outside of their native range, upset the natural community they have invaded and cause damage to the ecology or economy of an area. Having a variety of native plants in the buffer zone will allow them to out-compete invasive plants,making it much harder for invasive species to take root.

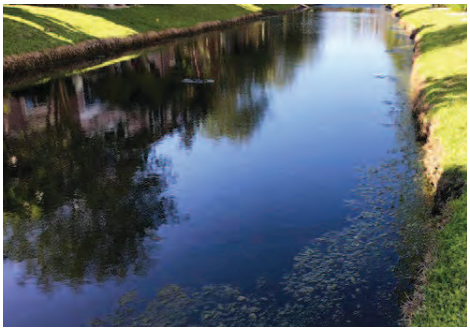
Improve water quality

Buffer zones along aquatic banks serve to reduce the transport of unwanted nutrients and sediment through the system and out to the watershed. Plants that actively filter nutrients without adding more reduce the nutrient load. Unwanted plant and algae growth in the water will be limited due to the filtration of nutrients from runoff.

Support wildlife habitat

A well-established buffer functions both as beneficial habitat for "good" wildlife and as barriers to nuisance wildlife. Buffers can provide safe habitat for many desirable species, including birds, frogs and rabbits, while allowing for an increase in the species diversity surrounding the lake. Nuisance wildlife, like geese often choose alternative locations for nesting and feeding since they are unable to see potential predators.

AQUASCAPING A RESIDENTIAL POND: BEFORE, DURING AND AFTER



Choosing the right native plants provides benefits for years to come.

The filtration of nutrients during rainfall events will be highly dependent upon the plants within the buffer area. Plants should be native species that are disease resistant, conducive to growth in that environment and resistant to drought. Also, plant location and spacing will often impact the success of nutrient removal.

The maximum benefits of a buffer zone are achieved only when you have a good mix of aquatic and upland species covering both the shallow-water areas and dry areas along the shoreline.

Lakes and ponds usually have several depth profiles. Generally, three to five feet around the shoreline provides great coverage. A customized native planting plan may include areas that are wider or more narrow to accommodate the terrain, plant preference, pond depth profile and the communities needs.

Once the plants are fully established it is important to maintain the plants properly to keep it beautiful and healthy for long term sustainability. Trimming the vegetation too often or improperly can add additional nutrients directly to the water, which can lead to additional water quality issues.

Plan now to create a lush area around your pond or lake.

Our Commitment to Responsible Lake Management

Aquatic Systems has been effectively managing Florida lakes, ponds, wetlands and uplands using targeted treatments based on scientific research for over 40 years. Headquartered in Pompano Beach and operating throughout the state of Florida, we are committed to the restoration and maintenance of naturally occurring freshwater lakes and ponds, man-made storm water/pollution retention ponds, wetlands and preserves.

Our Commitment to You

We believe that forming long-lasting partnerships with our customers is key to attaining beautiful, healthy waterways for all to enjoy.

You can expect us to:

- Respond to all calls within 48 hours, our average is 97% response in under a day
- Deliver detailed reports after every visit
- Be available for board or community meetings to give presentations or just answer questions
- Propose and promote methods that are better for the environment and more cost effective over time

Environmental Mission

We hire degreed biologists with the knowledge and experience to continuously assess and make recommendations based upon the conditions present each time they enter your property for service.

In addition to the tests we run for customers, our team of scientists engage in ongoing research to improve our lake management technology. Our goal is to find environmentally sound solutions that overcome this growing problem in the challenging Florida environment.

We use the observations of our service teams and the research from our labs to find and promote earth-friendly products and methods to treat both common and challenging water problems.

Your Personal Lake & Wetland Management Team

Aquatic Management Programs

Working in Florida Waterways Since 1977

Our beautiful Florida environments! We work and live in them every day! Aquatic Systems restores and maintains ponds, lakes, wetlands and preserves. Our exceptional results stem from using balanced and ecologically-compatible technologies.

Algae and Aquatic Weed Control

- Treatments targeted to the specific algae or plant in each water body
- Ongoing research to determine the underlying causes of overgrowth
- Scheduled treatments with management reporting
- Degreed, state certified and licensed aquatic technicians

Wetland and Upland Mitigation Services

- Design, creation and restoration of natural areas
- Exotic plant control and removal
- Mitigation management and government reporting
- Compliance violation correction services
- State certified and licensed natural areas field technicians

Midge Fly and Mosquito Control

- Treatment for year-round control of nuisance organisms: swarming midge flies, mosquito larvae, leeches and more
- State licensed and insured in public health pest control

Aquatic Lab and Field Testing and Research

- Experienced field biologists for field testing
- In-house labs for water quality testing and algae identification
- Aquatic weed science research lab to find better treatments
- Bathymetric mapping
- Easy to understand reports
- Staff biologist available for your questions

Vertex Lake Aeration and Floating Fountains

- Sales, installation, service and repair by well-trained technicians of:
  - Bottom diffused aeration systems to improve overall water quality
  - Custom design/build of floating fountains up to 60 horsepower with spectacular display heights from 10' to 100'

Fisheries Management

- Triploid grass carp to help control aquatic weeds
- Redear and bluegill help control midge flies
- Sport fish including largemouth bass, catfish and bluegill

Assessment Services

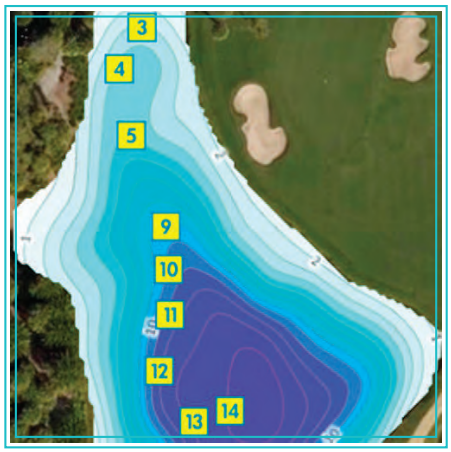
Lake Water Quality Testing and Research Services

Aquatic Systems has a fully staffed, in-house laboratory to provide complete water testing services to our clients. Laboratory data have many uses; including determining suitability of water for recreation or for irrigation. All water chemistry and bacteria test reports include full explanations and an aquatic biologist is available at our laboratory to answer all your questions.

The team, shown below, consists of the top professionals in lake science and experienced regional biologists who receive ongoing training to perform all tests to the highest standards.

FIELD ASSESSMENT SAMPLING

From identifying potential source points for excessive nutrients to oxygen and temperature levels; your assessments are performed by our highly trained field biologists.



BATHYMETRIC LAKE MAPPING

How deep is your lake? How thick is the vegetation? A 3-D map of the lake will help us treat the water more efficiently and/or specify the most effective aeration system.

WATER QUALITY LAB

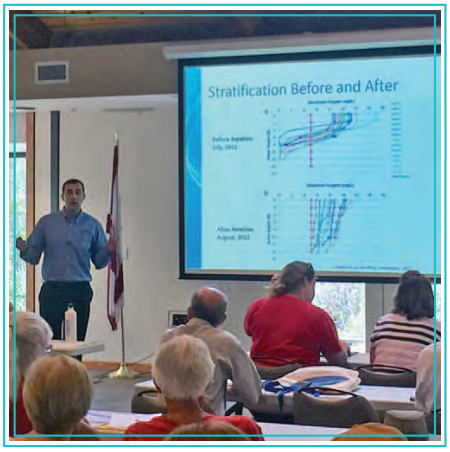
Water is more than H_2O. It is comprised of a multitude of nutrients and particulates. Our lab scientists can perform over 30 specialized tests to determine your water's true chemistry.

ALGAE IDENTIFICATION LAB

To treat the algae, it's important to know what type of algae you are having problems with. We can identify both the type of algae and whether or not it is toxic

AQUATIC PLANT AND ALGAE LAB

Our in-house research lab studies difficult to control invasive species to find the most effective rate and types of treatments that minimize potential harm to the environment.



CONSULTING SERVICES

Our experts are available for water resource management presentations, or to just answer questions at your meetings. Continuing Education Units (CEUs) are also available.

FIELD INSPECTION REPORT

March 15, 2019

Rizzetta & Company

John R Toborg – Sr. Field Services Manager

Rizzetta & Company
Professionals in Community Management

Summary, The Landing, Current, Salt Creek, Paradiso

General Updates, Recent & Upcoming Maintenance Events

☑ During the month of April, all Zoysia turf shall receive a granular application of 8-10-10 fertilizer with a minors package and a pre-emergent herbicide. Additionally, all Bermuda turf shall receive an application of 22-0-12 granular fertilizer with a minors package. All St. Augustine shall receive an application of 22-0-12 with Dimension pre-emergent herbicide and minors package between March & April. All Bahia turf shall receive an application of 25-0-11 fertilizer. on schedule & in progress

The following are action items for LMP to complete. Please refer to the item # in your response listing action already taken or anticipated time of completion. Red text indicates deficient from previous report. **Bold Red text** indicates deficient for more than a month. Green text indicates a proposal has been requested. Blue indicates irrigation.

1. Many of the newly installed mammy Crotons around the Landings pool deck are becoming defoliated. Is this fungal related? LMP will need to replace these under warranty. This is fungus, Treatments in work
2. There is still active Carolina Geranium in the Bermuda turf between the pool deck and trail behind the Landings pool.
3. Treat dollar weed in Oval Park turf on the west side. Treated 2 Apr
4. There doesn't appear to be much change in the Sabal on Current north. LMP to apply 1 ½ - 2 lbs. of 8-2-12+4Mg scattered around its drip line in an attempt to correct any nutritional deficiencies. (Pic 4) Treated 2 Apr

5. Is the off-color appearance of the Zoysia turf on either side of Milestone west of Park Strand a reaction to a recent herbicide application? irrigation related due to malfunctions in Imms system
6. There needs to be a clear cut line between the back edge of the Summer Sunset Jasmine and the front of the Better John Bottlebrush on the Maiden Sea cul-de-sac. Completed 2 Apr
7. The Sand Cordgrasses around the Triton Mail Kiosk are beginning to turn brown, but also are lying over. When will these be cut to a low mound? Completed by 26 Apr
8. Target the vining weeds in the Sand Cordgrasses near the Salt Creek Mail Kiosk and apply the proper herbicide. Completed by 19 Apr
9. Control encroaching turf into the ornamental grass beds near the west end of Crestpoint Park & detail tree rings. Completed by 26 Apr
10. Hand remove expansion joint weeds in the curb inlet at Crestpoint III. Completed by 19 Apr
11. More Fakahatchee Grasses are beginning to turn brown on the north side of Paradiso west of Shadowlake. Fert & pest will Treat by 19 Apr

Ebb Tide & Havensport, Paseo Al Mar West, CGD

12. Grasses are also turning in the pocket park at the east end of the pond between Ebb Tide & Havensport along Brevada. These may need to be drenched and cut. Completed by 19 Apr
13. Turf is also encroaching into the landscape beds on either side of Brevada at Waterset Blvd. will monitor And correct As needed
14. I'm not sure what we can actually do about this, but there are large patches of St. Augustine turf popping up in the Zoysia on the south side of Brevada at Waterset Blvd. St. Augustine is the aggressor here and will probably win the race, however, it may be possible to apply an herbicide which is safe for Zoysia and NOT for St. Augustine. Treatments in progress
15. Most of the ornamental grass beds on Waterset Blvd. leading northward to Milestone have a LOT of bed weeds. These need to be eradicated. There are also "mock" weeds in these grasses that needs to be eradicated … not simply cut back with all the other ornamental grasses. Completed by 19 Apr
16. Gold Mound between Shadowlake and Waterset Blvd. south of Paradiso is scheduled to be trimmed the day of this inspection. Completed
17. Soft edge and weed the bed between the homes on the east leg of Shadowlake and Waterset Blvd. Completed
18. The Utility company who trenched the west side of Waterset Blvd. at Paseo Al Mar needs to be called back to re-do the turf that was installed afterwards.

19. **During the CDD Turnover inspection for Paseo Al Mar west, it was stated that the GC needed to return to some pond banks and complete some Bahia turf installation in bare areas … this has not occurred yet. The Developer was going to coordinate this.**

20. LMP states the reason the turf on PAM median west of Covington Garden Dr.is off-color is due to irrigation problems. What is LMP doing to rectify this problem? working with Hunter to resolve irrigation issues
21. We will continue to monitor the Reclinata on the Covington Garden Dr./PAM roundabout. The off-color of some of the fronds may be due to wind and chill. (Pic 21) Fert & Pest will treat & monitor

22. LMP needs to be more aggressive in their spot treating of weeds in turf. They seem to be more problematic along the backs of the curbs on both sides of Waterset Blvd. from PAM heading north. All bare areas previously pointed out to LMP (thought to be chinch bug activity) are now filled with weeds. Treated with Avenue South

23. Many of the Crinum Lilies & Dwarf Firebush on Waterset Blvd. appear to be wilting. Is irrigation malfunctioning here as well? (Waterset Blvd. heading northward to Parkshore) Yes, Hunter Reps Are Assisting with Repairs of System
24. All open beds on the medians of Waterset Blvd. need to be kept edged and weed-free. Completed
25. We need to also monitor this Sabal on the west side of the home on Milestone at Mayport. It too is showing off-color fronds. (Pic 25>) Fert & pest will treat And monitor

Bowspirit Park, Hourglass Park, Covington Garden Dr.

26. Grubs were treated in the Bowspirit turf (west end) and now weeds are popping up in those areas. Continue with treatment to refurbish this turf. Treated with Avenue South

27. Most of the grasses in Milestone/Covington Park are still very brown and need to be drenched and cut. These have been deteriorating for a while now. Completed by 19 APR

28. Remove a completely dead Windmill Palm on the south side of Futura, west side of CGD. (Pic 28) Completed by 11 APR

29. Check some of the turf on the west side of Tideline at Windport near the sidewalk leading to the park. Has this been damaged? Drought stress & irrigation malfunctions

30. **TopChoice was applied to all irrigation trails, parks & roadways. TopChoice is a one-year guarantee for the eradication of imported red fire ants. It will usually take up to a 90-day period to get close to a 100% kill.**

31. Clean up some of the palm trunks in the northern half of Hourglass Parks. Arboricola, Brazilian Pepper & Dog Fennel may be present. Completed by 19 APR

32. **Carefully** apply RoundUp to help eradicate the Zoysia creeping into he Fakahatchee Grasses in the north part of Hourglass Park. Completed by 19 APR

33. The turf on the south side of Wave's End Park is MUCH dryer looking than the turf on the interior of the park. Is Irrigation working properly here? Irrigation issues are sporadic throughout Waterset. Hunter is assisting w/ repairs

34. **The replacement Sabal has now been installed under warranty near the Mail Kiosk in Colmar Park.**

35. Reduce the Lantana nearly to the ground on the triangular islands surrounding the Covington Garden Dr. roundabout at Parkshore. Completed by 11 APR

36. Eradicate encroaching turf and weeds in the beds on both sides of CGD, south of Parkshore. Completed by 19 APR

37. In the southern-most grouping of new Walter's Viburnum on the west side of CGD, the northern-most WV is extremely brown and needs to be replaced again under warranty. Make sure extra drip tubing is applied to these plants as they require a lot of H2O to get established. Irrigation malfunctions from Imms system shutoff drip

38. The Viburnum along the west side of CGD south of Lantern Park are not thriving near as well as those on PAM, and the grasses in this same area are a faded green. Is this area receiving adequate irrigation? Irrigation system is malfunctioning through out Waterset

39. The east ROW turf of CGD south of Lantern Park needs to have weeds eradicated.

40. **Warranty replacements have also been installed by Kim's Nursery along the southern run of CGD and the northern side of PAM.**

41. Copperleaf Plants are currently as tall as they should be allowed to get.

Lantern Park, Lantern View Park

42. **Will the BOS allow LMP to spend $500-$600 to refurbish seasonal Butterfly attracting plants in the Butterfly garden of Lantern Park? Some plants to choose from:**
- Cuphea ignea (Cigar Plant)
- Hamelia Patens (Dwarf Firebush)
- Pentas lanceolata (Red Pentas)
- Lantana camara (Common Lantana)
- Lantana montevidensis (Trailing Lantana)
- Stachytarpheta jamaicensis (Blue Porterweed)
- Stachytarpheta urticifolia (Red Porterweed)
- Lobelia cardinalis (Cardinal Plant)
- Asclepias tuberosa L. (Butterfly Weed)
- Buddleia davidii (Butterfly Bush "Miss Molly" = true red or "Blue Pride")
- Echinacea purpurea (Purple Coneflower) (Pic 42)

43. LMP to cut back all Scarlet Milkweed & Lantana in the Butterfly Garden of Lantern Park. LMP's contracted price per inoculation (single) is $25.

44. Mulch and a replacement Sabal in Lantern View Park will be going in within two weeks of this inspection. Completed

45. Eradicate weeds in beds in Lantern View Park.

46. LMP to put in all efforts to determine the cause of the failing turf in the east side of Lantern View Park and prescribe a treatment program to get it back in good shape. West side is improving. (Pic 46). Fertilizer, a fungicide applied

47. Dead head Crinums in Lantern View Park. Also tip all Standard Loropetalum here. Completed by 19 Apr

48. Make sure the relocated wireless Rain shut-off device in Lantern View Park is mounted in a suitable location and is receiving honest rainfall and that it is not being blocked by anything or receiving abnormally high amounts of runoff from structures. (Pic 48>) Irrigation department will complete

49. When the Sabal was removed in Lantern View Park, a drip line was cut and needs to be replaced. Completed

Lakeside Amenity, Big Bend Road

50. Cut out all dead Beach Sunflower a the Lakeside Amenity. Completed by 19 APR

51. Turf appears brown on the east side of the Lakeside Amenity, however, it was due to a reduction cut from LMP.

52. Do we need to increase the irrigation around the large Oak in the interior of the Lakeside Amenity by the Splash Pad? Turf appears dry.
IRRIGATION MAIN LINE BREAK (REPAIRS IN PROGRESS)

53. LMP needs to make sure they are mowing the entire limits of the Big Bend Road ROW on both sides of Waterset Blvd.
CREWS HAVE BEEN NOTIFIED

Proposals

1. LMP to provide a proposal to inoculate all Reclinata type palms throughout the property with OTC. This proposal should include a quarterly injection per palm for an entire year. Multiple trunk palms should get one injection per trunk.

Submitted To:

Waterset North CDD
5844 Old Pasco Road
Suite 100
Wesley Chapel, FL 33544

Date	4/5/2019
Estimate #	59119
LMP REPRESENTATIVE	
AF	
PO #	
Work Order #	

ITEM	DESCRIPTION	QTY	COST	TOTAL
	Estimate provided for a quarterly injection for Reclinata palms as per request for proposal in March inspection report. Injections are per trunk based on three (3) groupings of palms and a total of 29 individual trunks, 4x per year totaling 116 individual injections.			
F&P	OTC Innoculation	116	25.00	2,900.00

TOTAL **$2,900.00**

TERMS AND CONDITIONS:

LMP reserves the right to withdraw this proposal if not accepted within 30 days of the date listed above. Any alteration or deviation to scope of work involving additional costs must be agreed upon in writing as a separate proposal or change order to this proposal. Periodic invoices may be submitted if job is substantial in nature with final invoice being submitted at completion of project. Any work performed requiring more than 5 days to complete is subject to progressive payments as portions of the work are completed. No finance charge will be imposed if the total of said work is paid in full within 30 days of invoice date. If not paid in full within 30 days, then customer is subject to finance charges on the balance of the work from the invoice date at a rate of 1.5% per month until paid. LMP shall have the right to stop work under this contract until all outstanding amounts including finance charges are paid in full. Payments will be applied to the oldest invoices.

ACCEPTANCE OF PROPOSAL: The above prices, scope of work and terms and conditions are hereby satisfactorily agreed upon. LMP, Inc. has been authorized to perform the work as outlined and payment will be made as outlined above. The above pricing does not include any unforeseen modifications to the said irrigation system that could not be reasonably accounted for prior to job start. All plant material carries a one (1) year warranty provided LMP, Inc. is performing landscape maintenance services to the area installed or enhanced at the time of installation. If not, then there is no warranty on the plant material.

3/18/19

Hi Association (CDD North),

We received approval to construct our pool from Castle management on February 2, 2019. Our pool final site visit from Challenger Pool was today, 3/18/19. In addition, all Hillsborough County Permits have been approved. Challenger is ready to go pending CDD approval of their preferred access.

Challenger's preferred access to the back of our home to construct our pool is though CDD property. This is due to the following reasons.

Property located at 6134 Shadowlake Drive

- Verizon Box Obstruction
- Pool Equipment Obstruction

Property Located at 6138 Shadowlake Drive

- Drain and Electric Box Obstruction
- Pool Equipment Obstruction

- Preferred access is on the right side of 6138 Shadowlake Drive, which is through CDD property. We assume responsibility and will replace any grass (same grass type as currently there) that may be damaged.

Please see all attachments.

Thanks in advance for your consideration in this matter.

Richard James

RE: Architectural Approval 6136 Shadow Lake Dr

Dear Homeowner:

Your request for architectural change has been approved for the following specific modification to your home:

Approved : Pool

The approval of your request for architectural change is subject to the following stipulations:

Your changes must comply with state, county and local guidelines along with your Waterset Architectural Design Guidelines.

The Association reserves the right to make a final inspection of the modification to ensure that it corresponds with the submitted request for architectural change and conforms to any stipulations of the approval. Please adhere to the plan you submitted, or submit an additional Request for Architectural Change if you need to deviate from the submitted plan.

Please be aware that you may also be required to meet certain local building codes and setback requirements when making this modification. Additional permits may be required and can be applied for at the city offices. Please also be aware that you are responsible for contacting the appropriate utility companies should your modification involve any digging activity.

This approval is based only on the aesthetics of your proposed modification and should not be construed

as certification of construction worthiness and/or structural integrity of the proposed modification.

We appreciate your cooperation in submitting this request for architectural change. The Association encourages owners to take an interest in the appearance of their homes since an attractive community helps protect and enhance the value of all homes.

Respectfully,

Castle Management, Inc.

On behalf of the Board of Directors

Florida Insurance Alliance™

1 - Accessibility Policy

- An adopted and implemented (or in the process of implementing) website accessibility policy that is consistent with WCAG 2.0 Level A and AA

2 – Accessibility Statement

- A disability accessibility statement posted on their website that includes:
  - A commitment to accessibility for persons with disabilities
  - The accessibility standard used and applied to the District's website
  - Contact information (email and phone number) in case users encounter any problems

3 – Video / Audio

- Video and Audio is published or streamed in an accessible format.

4 – Quarterly Audits

- Quarterly audits done by a third-party to ensure that the website is in continual compliance with prevailing WCAG standards.

5 – Remedial Measures

- If the District has been previously sued
  - Settlement Agreement
  - Review remedial measures taken by District

PROPOSED ADA WEBSITE ACCESSIBLITY UW QUESTIONS

1. Does the District have a disability accessibility statement posted on the homepage of your website?

YES or NO

2. Has the District adopted and implemented a website accessibility policy consistent with Web Content Accessibility Guidelines ("WCAG") 2.0 Level A and AA?

YES or NO

3. Does the District publish video or audio content on or through their website?

YES or NO

If YES:

Is the content published or streamed in an accessible format? YES or NO

4. Does the District conduct independent third-party quarterly audits to ensure continual compliance with prevailing WCAG standards?

YES or NO

5. Have you ever been named as a Defendant to a lawsuit for claims arising out of your alleged failure to provide content on your website in a format accessible to a disabled person?

YES or NO

Tab 10

WATERSET NORTH COMMUNITY DEVELOPMENT DISTRICT
AGREEMENT FOR USE OF PROPERTY

This Agreement is made entered into on this day, the 28th of March, 2019, by and between:

Waterset North Community Development District, whose address is 9428 Camden Field Parkway, Riverview, Florida 33578 ("District"), and **NNP Southbend II, LLC**, whose address is 777 S. Harbour Island Boulevard, Suite 320, Tampa, Florida 33602 ("NNPSII").

For the benefit of the District and its residents, the District and NNPSII hereby agree that the District will allow use of its property, specifically the Landing and/or Lakeside Amenity (the "Property") for purposes of a series of concerts and/or other events on June 1, 2019 for National Trails Day, various Saturdays in September 2019 and October 2019 (the "Events"), and Thursday, November 28, 2019 for the Turkey Trot. The District agrees to allow use of the Property at no cost to NNPSII.

The District and NNPSII both agree to the following terms:

The District will be responsible for the cost to cover additional staff during and following the Events. The cost is calculated based on the amount the employee makes per hour and the amount of hours the additional staff is needed for the event.

Initial____

NNPSII is responsible for any damage to District property that may occur during the event by their volunteers, employees, performers, participants and/or spectators of the event.

Initial____

NNPSII is responsible for the costs to clean up of the property. This includes emptying the garbage cans and picking up trash/debris off the ground.

Initial____

Advertising, special offers and all promotional materials must be coordinated and approved by the District Staff. NNPSII will forward these materials to the District Staff for review and approval.

Initial____

Parking is limited. Arrangements will be coordinated with the District Staff prior to the Events to identify where volunteers, employees, participants and spectators may park.

Initial____

An onsite District staff member must be present at all times during the Events including set up and break down.

Initial____

Plans and final details for the Events must be discussed with the onsite District Coordinator prior to the Events.

Initial____

All unattended Event property will be removed as soon as possible after designated Event days to ensure that the Property is restored to its original state.

Initial

NNPSII and all vendors and contractors providing services for the Events shall obtain and maintain Commercial General Liability Insurance for use of the Property during the Events, which insurance must be current and valid the day of the Events. The insurance shall, at a minimum, provide One Million Dollars ($1,000,000) in Commercial General Liability coverage for each occurrence. The following must be named as Additional Insureds:

Waterset North CDD
9428 Camden Field Parkway
Riverview, FL 33578

The District may terminate this Agreement immediately, and at no cost to the District upon: (i) breach of any covenant of this Agreement by NNPSII; or (ii) a determination that the Property has become unfit for use for the Events, which determination shall be made in the sole discretion of the District.

NNPSII shall defend, indemnify and hold the District harmless from and against any and all actions, claims, suits, damages, fines, governmental penalties and liabilities asserted by third parties against the District as a result of the Events, and/or any intentional act or negligence of NNPSII, its employees, contractors or agents, and/or as a result of NNPSII's breach of any of its obligations under this Agreement. Provided, however, this indemnity excludes any claims or cause of action arising from or related to the District's gross negligence or willful misconduct.

NNPSII agrees to follow all Federal, State, County, City and District policies when planning the Events and assumes all liability for any fines, notices, or violations the District receives as a result of the Events. This includes acquiring all the proper permits and documentation for the Events. To the extent allowable under its license agreement with ASCAP, the District's ASCAP license shall cover musical performances.

The undersigned each represent that they are authorized to execute this Agreement on behalf of themselves and to bind their respective principals, agencies, or companies. Except as set forth above, this Agreement is valid from the time of signing to the conclusion of the Events.

On-Site MANAGEMENT REPORT – MARCH 2019

MARCH AGENDA / REQUESTS FOR CONSIDERATION BY BOARD OF SUPERVISORS:

- No requests for consideration

ADMINISTRATION UPDATE

- **Landing Café**: Community Director directed the closure of the Landing Café on Thursday, March 28th to address some maintenance issues found during an inspection of the Café by Community Director and Nvirotect on Wednesday, March 27, 2019. During the closure, the entire Café staff along with the Community Director completed a full cleaning and reorganization of the Café, including all storage and food preparation areas. Community Director will continue reviewing the café on a regular basis and working with Café Manager Mark Goldenberg to ensure the Landing Café is consistently maintained to the highest quality standards.

- **Staffing Updates**: ***Administrator Kim Morales resigned from her position at Waterset effective Friday, April 5th.*** Kim cited issues with staffing levels, extreme negativity among the more vocal owners of Waterset and communication challenges with developer representatives. These issues, along with the driving distance to Waterset were the primary factors for her resignation. Community Director and Castle group made attempts to retain Kim's employment, however we were unsuccessful. Regional Director Marilyn Nieves plans to share Kim's resignation letter with the board in a separate communication. Café team member Tristan Stanek has resigned from the café to focus on schooling.

  We are pleased to part-time Pool Monitors Stephanie Allen and Andrea Dawsey to the Waterset team. We would also like to welcome Janitorial staff member Philip Burgess to the Waterset team. Stephanie and Andrea have started providing coverage for the Waterset Club slides on Friday, Saturday and Sunday. Philip has been training and learning the amenities with Scott from maintenance and has been a great help in address many of our open maintenance items.

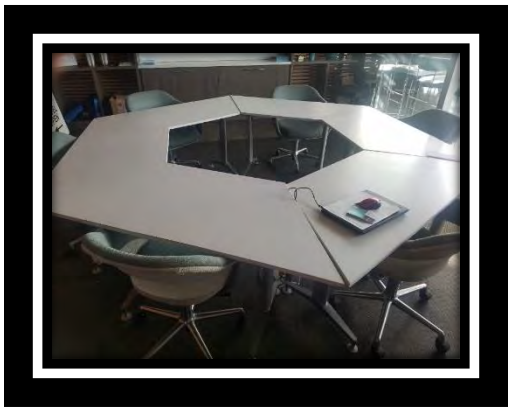
  Open positions: Administrator; Café Staff Member; and two Pool Monitors

OPERATIONS AND MAINTENANCE

Community Operational Notes:

Community Director wishes to share the following operational notes and recommendations regarding Waterset and its amenities with each board.

- The new pool monitors are reporting issues with residents failing to abide by District policies (use of alcohol, leaving children unattended at the amenities and rude and abusive behavior towards staff.) Community Director is addressing these issues on a case by case basis but wants each board to understand that abusive behavior towards staff directly contributes to staff turnover. A planned communication composed by Community Director to address the issue was cut from the Waterset Wave.
- The covers installed on the Lakeside and Dog Park gates have been removed, leaving the screws holding the magnet exposed. This allows anyone to unscrew the bolt and access these areas without a card.
- We have contacted Accurate Electronics to fix the construction issue from the repairs to the gate. If they do not fix the issue, we recommend withholding payment.
- Staffing levels and payroll are and continue to be an important issue at Waterset. Community Director has heard the goal of running the amenities like a result. If this is a goal each Board of Supervisors wishes to attain, staffing levels must be increased to achieve this result. Community Director is confident that Castle Group staff have illustrated quite clearly over the past six months their ability to be extremely diligent and work efficiently. If staffing levels are not increased in the next fiscal year, or sooner, the Board of Supervisors for each district should expect additional turnover due to burnout.
- The Dog Park was noted at capacity in the afternoon on Friday, March 22nd by Resident Services, as was the parking lot at the Waterset Club. Community Director recommends each board take these capacities into consideration when providing additional amenity badges or allowing large numbers guests to utilize the amenities.
- Homeowner request for a bike rack on CDD property near bus stop.
- The chairs and the rug in the business center at The Landing needs replacement. Community Director will review options and provide information to the Board of Supervisors at the next North CDD meeting.



- After nearly six months of purchasing bathroom maintenance supplies from Sam's Club, Community Director believes that both Districts are receiving excellent value versus the same supplies from Staples.

COMPLETED MAINTENANCE & PROJECT REQUESTS BY DISTRICT:

Waterset North CDD

- New black Waterset uniform shirts were purchased for the Landing Café staff.
- Community Director completed a review and reworking of the storage closet.

Storage closet

- The copier was delivered to Resident Services on Monday, March 4th. This item is the copier that is in the cost sharing agreement with Waterset HOA that was previously approved by the North CDD Board of Supervisors.
- Scott (Maintenance) completed the pressure washing of Dog Park awnings, benches and concrete.
- New Custom Channels music player was received and installed by Community Director.
- Verizon corrected a signal issue preventing the Custom Channel music player from playing music at the Landing and in the Landing Café.
- WCP completed the wood replacement and painting of the lower portions on the Pavilion. All repairs to the pavilion are now completed.

Recovered cushions

Renovated Pavilion

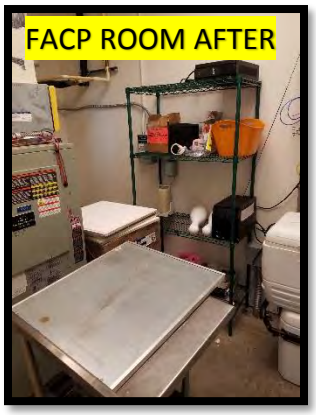
- George Upholstery completed the replacement of the covers on the cushions for the couch at the Pavilion.
- Community Director provided copies of alcohol invoices that were not located during the ATF's inspection for the Café. Rizzetta corrected the licensing address issue communicated during the inspection.
- Suncoast Pools completed multiple service calls to Lakeside to repair the splash pad and replace the motor in March. As of Thursday, March 28th the Splash pad is 100% in working order.

Landing Surge Protectors

Splash Pad operations test 3/28/19

FACP ROOM BEFORE

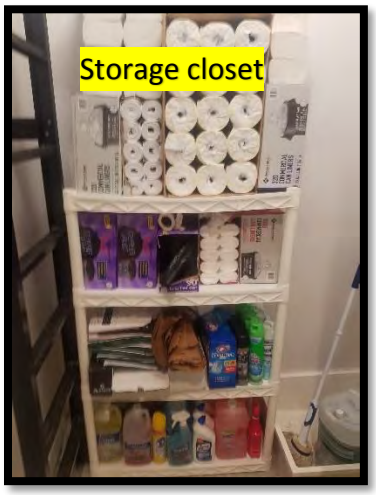
FACP ROOM AFTER



- Suncoast Pools repair a depressed paver by the water feature at the Landing Pool in March. There are no signs of additional issues in this area to date.
- After multiple calls by Newland sales team members to diagnose issues at the Landing, Community Director replaced two battery backup units in the FACP room on Wednesday, March 27th to address surges causing the music, fitness television and a host of other systems to go down repeatedly. Community Director and Maintenance cleared the FACP Room of old equipment and boxes on Thursday, March 28th.
- Maintenance bury a deceased sandhill crane that was struck by an automobile.
- Nvirotect completed service calls for the Landing this month. Technicians addressed wasp nests on the roofline of the Landing on Thursday March 7th and sprayed for a gnat infestation at the Café on Wednesday, March 27th.
- Maintenance performed the following tasks this month in addition to their regular duties:
  - Applied Webout at the Landing
  - Cleaned the window sills outside the gym
  - Applied ant treatment at the Landing and Lakeside
  - Removed bird residue from the Landing exterior
  - Removed and cleared debris from several North District ponds
  - Reinstalled fallen brick features with Liquid Nails.
  - Three outlet covers replaced at Lakeside.

Waterset Central CDD

- New blue Waterset uniform shirts were purchased for the Resident Services staff.
- Maintenance received and setup new cornhole game stations.
- Community Director completed a review and reworking of the storage closet.



- Maintenance addressed a small washout at the Waterset Club behind the pool in addition to their regular duties.
- Maintenance applied webout to the ceiling areas at the Waterset Club and performed a detail clean to remove webbing from interior fencing and lighting.
- Maintenance repaired and repainted the opening above the men's room doors by the pool.
- Maintenance Assembled a shelf for the Administrative office.

OPEN PROJECTS & MAINTENANCE ITEMS AS OF 3/28/19:

Waterset North CDD

- Light bulbs outside the fitness center have been replaced by maintenance. Currently one light remains on during the day. We will review this issue as soon as possible.
- There are a few dog signs that require replacement. With staffing limits in place, we plan to address as time allows and as high priority projects are completed.
- The fireplace screens need painting and/ or replacement. With staffing limits in place, we plan to address as time allows and as high priority projects are completed.
- The car that was reported parked with flat tires and an expired license plate remains in the parking space. The information acquired by resident Services has been transmitted to District Council per the Board of Supervisors request.
- Construction Manager Randy Appenzeller communicated that the deadline for the radio tower to be down is April 1st. As of March 28th, removal has not started.

Waterset Central CDD

- Prime Air Conditioning completed multiple warranty service calls to the Waterset Club this month to address issues causing the second HVAC unit to shut down. Recently it was communicated that the main pan has a defect and that is causing the main pan to spill over into the secondary pan which does not drain. Therefore, to protect from damage, the HVAC unit goes into shut down mode. Currently the drain pad is on order.

- Resident Services has contacted CRS regarding three ceiling fans outside the pool area that are not functioning properly. Two fans will not turn on and one fan will not turn off.
- Construction Manager Randy Appenzeller communicated that CRS will be addressing issues with the soffit on both the Waterset Club and the storage shed during gutter installation. Community Director notes that gutter work began on Wednesday, March 27th.
- Construction Manager Randy Appenzeller also notified Community Director that Stop sign at the end of the Waterset Club parking lot is to be reframed like similar signs throughout the community soon.
- Construction Manager Randy Appenzeller communicated that he has located the drainage issue behind the pool and yard drain is being connected.

COMMUNITY EVENTS & MEETINGS:

- Coffee with Castle was held on March 5th in the Gathering room at the Waterset Club with approximately 25 residents in attendance. North and Central CDD related questions that require Board of Supervisor input and decision were communicated by the Community Director at March CDD meetings.
- Waterset HOA Board of Directors Meeting – April 3rd at 3pm (Waterset Club Gathering Room). This meeting is a reschedule from the meeting that was to be held on March 6th.
- Waterset North CDD Meeting – April 9th at 6pm (Waterset Club Gathering Room)
- Waterset Central CDD Meeting – April 11th at 9am (Rizzetta's Riverview Office)
- The Waterset HOA will be hosting the annual Egg Hunt and visit from the easter Bunny on Saturday, April 13th. There are three age bracketed egg hunts that residents can signup for at Resident Services. The Egg Hunt will be held on the Grand Lawn behind the Lakeside amenity. The will be approximately 4,000 eggs across the three hunts, which special prize eggs hidden throughout. A photo opportunity with the Easter Bunny will be hosted in the Waterset Gathering Room in the afternoon. There are three appointment times for the photo op. Residents can sign-up at the Resident services office.

Please contact me if you have any questions regarding any items on this report.

Respectfully Submitted,

Barry Mazzoni
